

Vertical Panel Saws

SIGN MAKER'S SERIES

Makita Saw on a Spinning Insert

Sealed Steel Roller Bearings

Pivoting Knife insert

Dust Brush Around Saw Blade

Product Description:

These panel saws were designed specifically for the multitude of materials used in sign shops. It includes a Makita 5007F circular saw on a spinning saw insert, a spring hold down to help support thinner material and the Pivoting Knife cutter insert for cross and rip cutting soft or thin materials such as coroplast, foamboard, PVC, cardboard and more! Easily cut both vertically and horizontally.

The substrate cutter features the best dust collection possible with this machine. The Folding Stand is as easy to open & close as a ladder, yet provides complete stability while in operation. For portability and mobility, transport wheels are included. Both the vertical and horizontal measuring systems help to ensure accurate cuts while the stop bar provides the capability to make repetitive cuts.

Available Compact Models:

52" Cross Cut Model# C52SM
64" Cross Cut Model# C64SM

Available Fullsize Models:

52" Cross Cut Model# FS52SM
64" Cross Cut Model# FS64SM
76" Cross Cut Model# FS76SM
88" Cross Cut Model# FS88SM
100" Cross Cut Model# FS100SM

Standard Equipment:

Accu-Glide sealed bearing system
Accu-Square Alignment System
Quick Change Carriage
Spring Loaded Retraction Mechanism
Powder coated welded steel frame
11 Gauge Steel Guide Tubes
Strip Support Bracket
Accu-Fence System (Full Size)
Saw Cord Holder

Package Includes:

Makita 5007F 15 Amp Saw
Spinning saw insert plate
Dust hood, hose, hose coupler
Saw blade surrounding brush
Folding Stand and Wheels
Dual Rip Gauge
Stop, Bar and Tapes
Spring hold down
Pivoting Knife Cutter

Optional Accessories:

Full Mid-Fence
Sheet Clamp
ACM Cutter
Floating Router Plate
Full Builder's Extensions
Laser Pointer

Our patented Accu-Square alignment system assures that your machine will never go out of square and our unique sealed roller bearing system provides for smoother carriage action and tighter tolerances.

Want to cut Dibond with no saw dust & have smooth edges? Add our ACM Cutter insert. Want to use to V groove Dibond? Add our Floating Router Plate.

CORRUGATED PLASTIC CUTTERS

- Hand-held flute cutter for corrugated PVC such as Coroplast®
- Available models for 3 mil, 4 mil, and 10 mil corrugated PVC
- Score with outer prong and cut with inner prong
- Replaceable blades

CCD3 3mil Coro Claw

CCD4 4mil Coro Claw

CCX 10mil Coro Claw

CUTTING A SHEET

Patented ergonomic handle houses dual prong replaceable blades to easily and effortlessly cut along the flutes.

Insert inside cutting prong into flute. Using even pressure, pull so prong goes straight into flute and pull Coro Claw towards you, cutting the sheet as you go. Coro Claw cuts cleanly through the sheet travelling along the flute.

SCORING A SHEET

Quickly score sheets to create point of purchase displays, boxes, and join panels together when cutting with a single prong.

Insert outer cutting prong into flute. Using even pressure, pull so prong goes straight into flute and pull Coro Claw towards you, scoring the sheet as you go. Coro Claw cuts cleanly through the top layer of the corrugated sheet for easy bends. Cut two flutes side by side for seamless corners!

BIDDI Safety Knife

BI-DIRECTIONAL

- Safety knife for cutting banners, vinyl, laminate & more!
- Bi-directional blade cuts forward & backward.
- Ergonomic handle makes cutting a breeze!
- Replaceable blades.

Unique cutting head cuts both in a forward motion and backward motion!

Blade is fully protected and will not cut into table top, printer or laminator.
